An educational institution is an abode away from home that caters to the holistic development of an individual, through care, guidance and discipline. The Society of the Oblates of Sacred Heart envisages this objective in every realm of its work to the best of its ability. The oft-neglected but most needed spiritual assistance is well knitted into the curriculum.

About Us

Sacred Heart Public School follows the Curriculum and Syllabus of the Central Board of Secondary Education (CBSE), New Delhi and prepares its students for the Secondary School Examination (X) and Senior School Certificate Examination (XII). It aims at the attainment of the highest order of academic excellence. Non-academic subjects including music, dance, sports and creative projects are given equal importance.

SHPS has a team of well experienced and highly qualified faculty members. They are well trained in using group learning techniques which help the child to learn through personal experience. Emphasis is given to the development of character, leadership, social responsibility and emotional stability in the student. Great importance is given to providing individual attention to students, maintenance of discipline and moral values.

The school advisory council helps to arrange special care for slow learners and also to identify innate talents in students. Such talents are encouraged and developed by providing healthy competition through the use of class magazines, bulletin boards, demonstration classes, inter-house exhibition, sports and cultural activities.
